Shoulder and Knee Surgery  
Sports Injuries  
Orthopaedic Trauma

## GAVIN CLARK

Mr Gavin Clark is a lower limb orthopaedic surgeon who has subspecialised in knee and hip surgery. Gavin has extensive experience with joint replacement surgery undertaking over 200 joint replacements each year.

Gavin also has a strong interest in arthroscopic surgery of the knee and hip. He provides a weekly evening consulting session

at Hollywood for urgent injuries and will be able to operate on privately insured arthroscopy patients within two weeks.

Having consulted in Midland for seven years Gavin looks forward to continuing his commitment to the region at Midland Orthopaedics and the new St John of God Midland Hospital

## MICHAEL EDWARDS

Mr Michael Edwards is an Upper Limb Orthopaedic Specialist.

His special interests are in Upper Limb Surgery; Shoulder, elbow, hand and wrist.

He consults at Mercy Orthopaedic Centre, Mount Lawley. He also has a fortnightly session at Mead Medical Group, Kalamunda as

well as three sessions at Midland Orthopaedic Centre. He has some late appointment slots on Tuesdays and alternate Thursday evenings at the Mercy rooms.

Michael operates at Mercy Hospital Mount Lawley and holds a public position at Swan Districts Hospital.

## CLEM McCORMICK

Mr Clem McCormick is a lower limb Orthopaedic Surgeon with a particular interest in hip and knee surgery. Clem also specialises in Paediatric Orthopaedic surgery and sports knee injuries.

Clem's main consulting rooms are located in the new Hollywood Medical Centre, however he consults on a weekly basis at Midland Orthopaedics, servicing patients of Midland and surrounding

suburbs. Clem also holds a weekly evening Clinic at his Nedlands Rooms for urgent appointments.

After completing his FRACS in 2004, he returned to the United Kingdom for further sub-speciality training in hip and knee surgery and paediatric Orthopaedics.

## JONATHAN SPENCER

Mr Jonathan Spencer specialises in shoulder and knee surgery. In addition to performing all forms of shoulder surgery, he has expertise in image-guided knee surgery with a focus on patient-specific knee replacement.

Jonathan's approach to patient care prioritises good communication and an individualised treatment plan, considering both individual needs and a patient's pathology.

He has completed a Research and Clinical Fellowship in shoulder surgery at Nuffield Orthopaedic Centre in Oxford, and a knee replacement fellowship in Perth in 2005. He received his Australian Fellowship in Orthopaedic Surgery in 2008. Also, Jonathan is a member of the Australian Orthopaedic Association and the Australian Orthopaedic Trauma Society.

## MICHAEL LEDGER

Mr Michael Ledger's focus is on shoulder and knee surgery. He also specialises in sports injuries. Michael performs both arthroscopic and open surgery extensively. His specialty interests include arthroscopic management of the rotator cuff and associated conditions, shoulder instability, and knee cruciate ligament reconstruction and meniscal injuries.

Michael is locally trained. After completing his FRACS in 2008, he travelled to Sydney and undertook a Prince of Wales Hospital Shoulder and Elbow Fellowship, and a knee sub-specialty fellowship at the Mater Hospital.

Michael has a keen interest in orthopaedic research and has numerous publications in shoulder and knee peer-reviewed journals. Michael is a consultant orthopaedic surgeon at Royal Perth Hospital and Joondalup Health Campus.
